Capo: 4th fret

## CHORDS

C#m   B   A

12 4   32   21

Somewhere with You
Kenny Chesney
Capo 4th fret

[Intro]

C#m B   C#m   B

[Verse 1]

```
              C#m
If you're going out with someone new
          B
I'm going out with someone too
        A                              B
I won't feel sorry for me, I'm getting drunk,
                                   C#m
but I'd much rather be somewhere with you
```

[Pre-Chorus]

```
Laughing loud on a carnival ride, yeah

Driving around on a Saturday night
                    B
You made fun of me for singing my song

Got a hotel room just to turn you on
          A
You said pick me up at three A.M.

You're fighting with your mom again
    B                                C#m   B
And I'd go, I'd go, I'd go somewhere with you, yeah
```

[Verse 2]

```
        C#m
I won't sit outside your house
                   B
And wait for the lights to go out
              A                                B
Call up an ex to rescue me and climb in their bed,
                                           C#m
when I'd much rather sleep somewhere with you

[Pre-Chorus]

Like we did on the beach last summer

When the rain came down and we took cover
       B
Down in your car, out by the pier

You laid me down, whispered in my ear
      A
I hate my life, hold on to me

Ah, if you ever decide to leave
         B
Then I'll go, I'll go, I'll go

[Chorus]

          C#m
I can go out every night of the week
         B
Can go home with anybody I meet
             A                           B
But it's just a temporary high 'cause when I close my eyes
                     C#m                  B
I'm somewhere with you, somewhere with you

[Verse 3]

            C#m
If you see me out on the town
              B
And it looks like I'm burning it down
           A
You won't ask and I won't say
            B                           C#m
But in my heart I'm always somewhere with you

[Pre-Chorus]

Laughing loud on a carnival ride, yeah
```

```
Driving around on a Saturday night
         B
You made fun of me for singing my song

Got a hotel room just to turn you on
         A
You said pick me up at three A.M.

You're fighting with your mom again
      B
And I'd go, I'd go, I'd go

[Chorus]

         C#m
I can go out every night of the week
      B
Can go home with anybody I meet
         A                          B
But it's just a temporary high 'cause when I close my eyes
                    C#m                 B
I'm somewhere with you, somewhere with you
               A
Somewhere with you
                    B
I'm somewhere with you

[Solo]

C#m  B
A    B
                    C#m      B
I'm somewhere with you
                A                    B
Somewhere with you, somewhere with you
C#m    B
A     B
(fade out)
```
