

# Slide Arm 1:1 Pattern

*The scales at left help verify this page has printed at the correct size, if they differ from the stated dimension, make sure your printer is set to 100% scale, "Actual Size" or similar.*

*The pages overlap by 1 diagonal square. Trim a little more than the margin from this page bottom with scissors and then tape or glue over Page A2 while aligning the diagonal grid.*

*Center to center distance on the holes should be just under 16-1/4" (412 mm)*
